## WHAT DOES THE PISTOL PAD STORAGE SYSTEM DO?

The Pistol Pad Storage System allows the gun owner numerous ways to store their self-defense weapon. Whether you store your weapon locked or unlocked, anchored to a desk or shelf or unanchored, interfaced to any alarm system or not interfaced, used as a "hide" or a "lock box", local alarm siren on or local alarm off, or local alarm removed and used anywhere else such as a desk drawer, cabinet, or anything else that opens and closes.

In short, The Pistol Pad Storage System is designed to allow the gun owner immediate unrestricted access to their self defense handgun while limiting possible theft and/or other unauthorized individuals from tampering with the weapon.
